#### Induction Plate Activator with TempSense

# **Application/Features:**

- Charges 9" ceramic induction plates for room service or tray line applications
- Built-in *TempSense*<sup>™</sup> heat sensing regulator for consistent heating
- Calibrated plate locator assures precise plate placement on charging surface

#### Performance:

- Charge time of approximately 20 seconds from ambient temperature
- Hold time of 20 minutes or more (with insulated dome and underliner)

## Construction:

- Stainless steel 18-guage housing
- High-impact polycabonate top charging surface
- Rubber feet for non-slip stability

#### **Electrical:**

- 120 VAC, 60Hz., 1-Ph.
- Six foot 14-3 grounded power cord with NEMA 5-15P angled plug

#### Warranty:

- 2-year parts
- 1-year labor

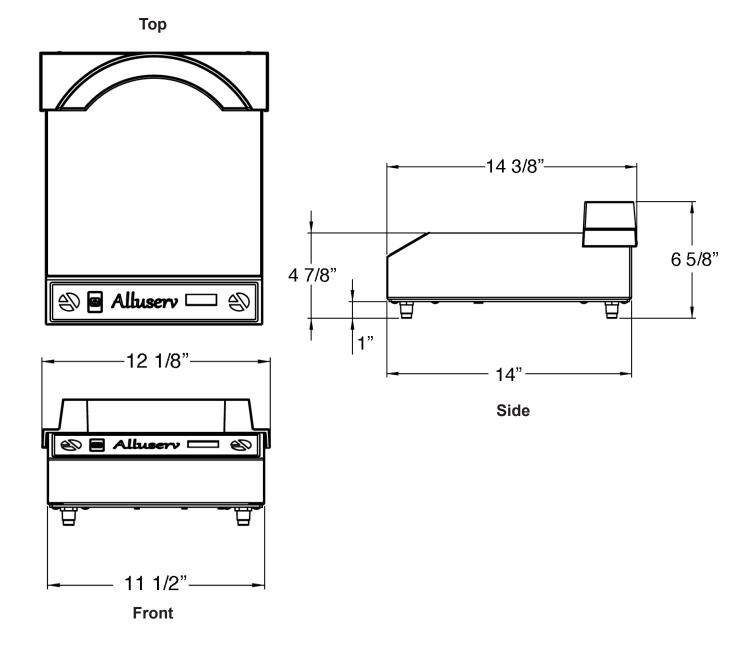

## **Specification:**

Alluserv **Model AIPH1** charges (heats) plates by magnetic induction. Units charge 9" induction plates. Induction charger has 900 W output. Unit exterior housing is 18-guage stainless steel (Type 300), and includes rubber feet. Top charging surface is scratch-resistant polycarbonate, and features a calibrated plate locator to assure precise plate placement on charging surface. Built-in *TempSense*<sup>™</sup> heat sensing device is preset to regulate consistent plate temperatures to 210°F. Unit operates on 120 VAC, 60Hz, 1-phase, and is supplied with 6' grounded 14-3 power cord with NEMA plug. Unit is ETL listed for sanitation and safety and has a 2-year parts and 1-year labor warranty.
